

AUS920010464US1

In the Specification:

Please replace the paragraph beginning at page 8, line 1, of the Detailed Description section of the specification with the following paragraph:

Turning now to Figure 2, further embodiments are seen as context aware, shortcut enabled methods of presenting information through a user interface implemented in software operating upon an information management database server (102). In typical embodiments, the information management database server is coupled for data communications (106) to a client device (108), and the client device includes automated computing machinery upon which is installed an operative user interface (110). Embodiments typically include selecting (202) a context (204), and receiving a shortcut (210) entered through the user interface, the shortcut having [[a ]]associated with it a shortcut field name set (212) comprising one or more shortcut field names.

Please replace the Abstract of the application with the following paragraph:

A context aware, shortcut enabled system of presenting information through a user interface, implementing memory prostheses and context-oriented changes in meanings of shortcuts. Embodiments include selecting a context, receiving a shortcut entered through the user interface, the shortcut having [[a ]]associated with it a shortcut field name set comprising one or more shortcut field names, and associating at least one context value to the context. Embodiments also include inferring, in dependence upon the context, a context table name and a context field name for a query, creating the query, selecting records from an information database by use of the query, whereby selected records are selected, and downloading the selected records to the client device for display.
